

DUAL ENROLLMENT INFORMATION

- To earn credits for either program, it is important to note that you must meet all of the minimum dual enrollment entry qualifications as mandated by Seminole State College (SSC).
- Dual enrollment requirements are subject to change and SSC reserves the right to change these requirements without notice.

HOW DOES THIS PROGRAM CONNECT TO THE

Real World?

The program of emphasis works with professional community members to ensure real world connections. Students will be analyzing recent case and evidential information to substantiate or refute guilt and innocence. Students will gain critical thinking and research skills that only come from being guided, challenged, and working through real world problems to obtain answers.

PROGRAM OF EMPHASIS

CRIME SCENE DO NOT CROSS
CRIME SCENE DO NOT CROSS
CRIME SCENE DO NOT CROSS

SEMINOLE COUNTY PUBLIC SCHOOLS

WHAT IS FORENSIC SCIENCE?

Forensic Science is the discipline that uses groundbreaking modern scientific technology, analytical thought processes, and careful examination of detail to give reliable and testable evidence in today's crime scene investigations. Forensic Science uses scientific knowledge from a variety of disciplines to help shape the present and future of our justice system.

Possible Career Pathways include, but are not limited to:

- Laboratory Directors
- Medical Examiners
- Forensic Technicians
- Medical Legal Death Investigators
- Attorney
- Law Enforcement
- Forensic Equipment Vendors
- Evidence Custodians
- Biometrics
- Computer Forensics
- Crime Scene Investigators
- Forensic Anthropology
- Forensic Art

WHAT IS LEGAL STUDIES?

Legal Studies teaches and fosters critical thinking and analytical skills, while reinforcing a common-sense approach to problem solving. Students will learn the foundations of our legal system and how those foundations continue to shape and guide our society today. Students will learn about some of the most famous and controversial legal cases in history and will have the opportunity to come to their own conclusions about the outcomes of those cases. Above all, students will develop and hone skills that will continue to serve them well beyond the classroom in an exciting and interactive environment.

Possible Career Pathways include, but are not limited to:

- Attorney
- Paralegal
- Forensic Photography/Digital Imaging
- Forensic Accountants
- Forensic Odontology
